- Interactive Prototyping
- UI Design & Mockups
- Visual Design & Branding
- UX Research & Heuristics
- Design Systems & Style Guides
- Cross-Platform Design (Web, Mobile)
- HTML5, CSS3, SCSS, Bootstrap 5, Tailwind CSS

History Of Experience

ECLIPTON TECHNOLOGIES PVT LTD MADURAI - *Senior UI/UX Developer*

Feb 2024 – Apr 2025

As a UI/UX Developer, I was responsible for end-to-end design execution across mobile and web platforms in the travel and crypto domains. My role focused on translating user needs into clean, functional, and visually engaging interfaces, while also contributing to front-end development and brand identity.

Key Responsibilities:

- Conducted user research and gathered requirements for flight and hotel booking experiences. Designed low-fidelity wireframes for both mobile and web applications to validate user flows and layouts. Created high-fidelity UI mockups and interactive prototypes using Figma, following team feedback and stakeholder approval.
- Designed and developed responsive web pages for the booking platform, integrating with a React application styled using Tailwind CSS.
- Designed the logo and brand identity for the web-based flight booking application.
- Produced creative assets for digital campaigns, including social media posters for both flight booking and crypto-related apps.

SUGI INFOTECH PVT LTD MADURAI - *Team Lead UI & Graphics*

Nov 2021 – Feb 2024

In this role, I led the UI and graphic design initiatives across multiple digital and print projects, ensuring design consistency, responsiveness, and visual impact. I was responsible for modernizing legacy systems, mentoring design team members, and delivering branding materials aligned with business goals.

Led the UI design for the Isotracker product, delivering clean and functional mockups tailored to user needs. Revamped legacy HTML-based table layouts into modern, responsive interfaces using Bootstrap, enhancing usability across devices. Managed and mentored a cross-functional design team, overseeing both UI and graphic design outputs.

Designed a variety of brand and marketing assets including business cards, nameboard signage, and digital products. Ensured design consistency across platforms while maintaining alignment with brand identity and project requirements.
